## Smart Home

Smart home for home lighting, air conditioning, TV, curtains, door locks, gas, fresh air, humidifier, audio and video equipment, water heaters and many other products automatic management, remote control and other functions, so that People's Daily life becomes simple and orderly, reduce work pressure to improve the quality of living.

## Wireless Battery-support RFID Card Lock

Patent number:201330399217.0

### Function features

Intelligent no cable install battery support RFID card lock, smart one-stop solution to solve the previous installation and configuration complex problems, build-in chip, to let the customer use more convienent

- Working voltage: 4x 5# Alkaline batteries
- Battery life: 1 year or switch(on/off the lock) 30k times above
- Remote capacity: 30 users
- Card capacity: 970 users
- Automatic lock support for unlocking by mistake, delay 10 seconds
- Door closing inductive anti-interference support,delay 0.5 second

## INTELLIGENT Electromechanical Lock

### Function features

- The length of the lock tongue□20mm□meet GA/T73-94 5.1.6B standard
- Can be compatible with building system of entrance guard system, etc
- Automatically detects the door status, automatic processing to open close the door
- Can be installed on the left door, right door, interior door, outside the door and other doors
- Working voltage:DC12V-18V,working current:□350mA,static 25mA, unlock time ≤1S
- Long life (more than 500,000), on / off, high sensitivity about ON/OFF, low power
- consumption: 1.When the power is off, the lock will be opened automatically
  2.Support for signal feedback, lock open/close status feedback.

## SUPER SMARTINTEGRATED BURGLARPROOF&ALARM LOCKSET

### Function features

- The length of the lock tongue□20mm□meet GA/T73-94 5.1.6B standard
- Can be compatible with building system of entrance guard system, etc
- Automatically detects the door status, automatic processing to open close the door
- Can be installed on the left door, right door, interior door, outside the door and other doors
- Working voltage:DC12V,working current:□350mA, static 25mA, unlock time ≤1S
- Long life (more than 500,000), on / off, high sensitivity about ON/OFF, low power consumption
- consumption: 1.When the power is off, the lock will be opened automatically
  2.Support for signal feedback, lock open/close status feedback.

### OUT-GOING RELEASE BUTTON

#### Function features

- Outer dimension: 86*45*20mm or 86*86*20mm
- Standard instructure: Aluminum alloy or SS panel, metal buttonElectrical
- performance: maximum durable current 3a-36vdc
- Output contacts: NO/COM
- Durability test: passed 500, 000 aging tests

### FREQUENT OPEN/CLOSE SWITCH BUTTON

#### Function features

- Outer dimension: 86*86*20mm
- Standard instructure: Fireproof material mixed with resin
- Electrical performance: maximum durable current 3a-36vdc
- Output contacts: NO/COM
- Durability test: passed 500, 000 aging tests

### COMMON ALL-IN-ONE ACCESS CONTROL DEVICE

#### Function features

Intelligent mangement, optional for add card□ delete card management, high security, burglarproof□ anti-temper alarm output,

2000 user card(capable extended to 8000-10000 card), external door magnet, horn alarm, functions convience operation.

Optional for ID□IC□NSC□and other kind of cards.

### ID、IC SHAPED CARD.IC

#### Function features

- Large coil with better induction
- Dimension: 35mm x 28mm x 6.6mm
- Ambient temperature: -20℃ to 55℃
- Humidity: 20%-93%

### Second generation identity card, residence permit IC access control system

#### Function features

- Five different opening modes: 1. Card, 2. Password, 3. Card plus password, 4. Double cards, 5. Double password
- Storagble for 5000 card, 99 password, With go out button and magnetic alarm
- Support for reading card wigan 26 output, can be
- used as an access card reader

HuaRui
NP-S350

### NP-S350 12V7Ah

#### Function features

- Model: 12V7Ah
- Nominal voltage: 12V
- Capacity: 7Ah
- Dimension: 150(L)*6(W)*94(H)mm
- Pack: 10pcs/ctn

### SPUARE BACK DOOR CLOSER

- Material:Die Casting aluminum alloy
- Maximun door width: 900-1300mm, door weight fit 60-80kg,
- Adjustable speed closing section: 180° -20°
- Adjustable force locking section: 20° 0°
- Spray plastic rocker arm, prevent corrosion; precise oil seal, prevent oil leakage.
- Two hydraulic valves independently control the two sections of the door, locking speed, do the whole section of hydraulic control
- High carbon steel gear shaft, rack, high frequency modulation treatment, small deformation, flexible operation
- With stop function 90°,positioned extend to 180°, without positioned

### MULTI-FUNCTION POWER SUPPLY(UPS)

- AC input: AC220V 50Hz
- DC output: DC12V
- Outer dimension: 210*165*78mm
- Nine output contacts: Access control, electric lock, building system, switch, etc...
- Delay door open time: adjustable between 0-25 seconds
- Backup battery: capable equip with 7A 12V or double 4A 6V battery.
- Safety protection: build-in fuse tube, overload and short circuit protection, Protect the battery charging function
- Remote control: Can be inserted remote control module, remote control door

### Single door Surface mounted type

- Model: HR-280A
- Pull specification: 280kg
- Working voltage: 12VDC
- Working current: 400mA
- Lock body dimension: 250*48*25mm
- Steel panel dimension: 180*40*10mm

### Single door Invisible installation type

- Model: HR-180B
- Pull specification: 180kg
- Working voltage: 12VDC
- Working current: 400mA
- Lock body dimension:190*35*25mm(Insert lock body length□150mm)
- Steel panel dimension: 130*35*10mm
